Dear Sir,

Please find attached herewith the curriculum gap (communicated by respective HODs) for your kind information and consideration of respective Board of Studies (BOS) : 2025-26.

Thanking you

Warm Regards

Prof. (Dr.) Sanjay Kumar Singh

Subject: Submission of Report on Curriculum Gap Identified in AKTU Syllabus for CSE-IoT

Respected Sir,

I am forwarding herewith the report on the curriculum gaps identified in the AKTU syllabus for the academic session 2024-25, Even Sem, as per the guidelines of the NAAC/NBA accreditation process.

As per the department's internal academic review and analysis, specific gaps have been observed between the existing AKTU syllabus and the current industry requirements/higher education standards. The faculty members of the department have thoroughly analysed the syllabus for the subjects taught and have identified specific areas where additional content and practicals are required to bridge these gaps.

The details of the identified curriculum gaps along with the proposed action plans to address them are enclosed for your kind perusal and necessary approval.

This report is being submitted for your consideration and onward submission to the Academic Council/IQAC cell for further processing.

Thank you for your support and guidance.

Yours sincerely,

Praveen Kumar Mishra

Subject: Identification of Curriculum Gaps in the University Regulation

Respected Sir,

It is to bring to your kind notice that, there are certain curriculum gaps identified in the AKTU syllabus. It is our request to kindly consider the identified gaps in the new regulation and benefit the students in future endeavors.

Below is the list of identified gaps for your kind perusal:

Department of Mechanical Engineering					
S. No.	Semester	Subject Code	Subject Name	Suggested / Identified Topics (Curriculum Gap) Suggested To be added in Syllabus	Remarks, if any
1	3rd	BME-301	Thermodynamics	<ul style="list-style-type: none">Incorporate more practical sessions and real-world applications, especially related to thermodynamic relations such as Maxwell, Clapeyron equations, etc.Case studies on real material failure, structural analysis, and green building HVAC systems.	
2	3rd	BAS-301	Technical Communication	<ul style="list-style-type: none">A dedicated lab or module to enhance students' communication skills.Option to learn an additional foreign language based on students' interest and future career opportunities.	
3	4th	BME-403	Manufacturing Process	<ul style="list-style-type: none">For subjects with vast practical applications, it is suggested to divide them into two separate modules for better clarity and in-depth understanding.	
4	4th	BME-402	Engineering mechanics and Strength Material	<ul style="list-style-type: none">Inclusion of mini-projects and mechanism-based projects (e.g., trusses, linkages, actuators, sensors).Promote research-oriented projects focusing on real-time problems in society and industry.Projects addressing rural challenges with a problem-solving approach by students.	
5	5th	BOE-061	Quality control and reliability	<ul style="list-style-type: none">Integration of tools like Minitab, and SPC charts for design, analysis, and quality control.	
6	5th	BME-503	Industrial Engineering	<ul style="list-style-type: none">Inclusion of industrial visits and field studies as part of the curriculum.	

7	6th	BME-061	Industrial Robotics	<ul style="list-style-type: none"> Students must be taught about the automation practically and that must be added in curriculum Curriculum should include emerging topics like Machine Learning and Artificial Intelligence, especially their role in mechanical and industrial applications
8	6th	BME-601	Refrigeration and Air conditioning	<ul style="list-style-type: none"> Introduce modern refrigerants and eco-regulations Psychometric analysis with tools Case study: Green building HVAC
9	6th	BME-603	Theory of machine	<ul style="list-style-type: none"> Use Solid Works Motion, ADAMS tools Mechanism-based projects Combine with actuator/sensor study
10	7th	KHU-701	Rural Development	<ul style="list-style-type: none"> More focus should be on how an engineer can solve the problem which the rural area is facing Project work can be added to visit the rural area and identify the problem which village person are facing and provide a solution accordingly.
11	7th	KOE-074	Renewable Energy Resources	<ul style="list-style-type: none"> More focus on the future energy resources like how Hydrogen energy can be future, and how to utilize the other renewable sources of energy to its fullest.
12	8th	KME-851	Project	<ul style="list-style-type: none"> More project should be based on current society problem or the current problems in industry and proper solution to them Project should be more research oriented.

DQAC Meeting Notice

Subject: Notice for Meeting on Curriculum Gap Analysis – B.Tech Chemical Engineering

All faculty members of the Department of Chemical Engineering are hereby informed that a departmental meeting has been scheduled on **6th August 2025** at **2:30 PM** to discuss the **curriculum gap analysis** for the **B.Tech Chemical Engineering program**.

Agenda:

1. Review of the current B.Tech Chemical Engineering curriculum
2. Identification of curriculum gaps based on industry and academic expectations
3. Discussion on mechanisms to bridge the identified gaps

All faculty members are requested to attend the meeting punctually and contribute constructively to the discussion.

07-08-2025

Minutes of DQAC Meeting, held on August 06, 2025

A meeting of Department Quality Assurance cell (DQAC) was held on 06-08-2025 (Tuesday) from 10:30 AM in the office of Head of the Department.

The following DQAC members were present:-

1. Dr. Satish Kumar Soni (Associate Professor & Head)
2. Dr. Brijesh Kumar Gupta (Professor)
3. Dr. Kripa Shankar Mishra (Professor)
4. Dr. Uruj Jaleel (Professor)
5. Mr. Rooban Agarwal (Assistant Professor)

The agenda for this meeting was discussion and verification of curriculum gap in MCA syllabus identified by respective course ^{faculty} members. After observation and discussion the following points were verified as curriculum gap for further submission.

1. In DBMS- BMC204 (MCA Semester-II) - It is suggested to include Non-relational Database and Introduction to MongoDB.
2. In Operating Systems-BMC203 (MCA Semester-II) - It is suggested that Unit- (III) should be Unit- (II) and vice-versa.
3. In AI-BMC021 (MCA Semester- III) – It is suggested that AI Prompt engineering should be added in Unit-II.

The meeting was adjourned at 12:00 pm with vote of thanks. The minutes of meeting are prepared and approved by undersigned.
