

Shyamsundar (Electrical Engineering)

Soft Skills: MATLAB

Specialization

M.Tech: Power System

Area of Interest

Research: In the field of renewable Energy -Published scopus paper in international journal of electrical engineering & informatics

Other: Have knowledge of simulation on MATLAB, HOMER Software

Participated - In Specialized Training / Certified Courses: ICT course on Power Electronics for Smart Grid and Renewable Energy Control May 15-19, 2017 Organized by MNIT Jaipur sponsored by Information & Communication Technology, Government of India

Publication - Books / Chapters / Papers / Articles / Blogs: Paper in international journal (Scopus) on grid integration of alternative source of energy system connected with grid substation
