

CENTRE OF EXCELLENCE—

Vision of Institute

To be an outstanding institution in the country imparting technical education, providing need-based, value-based and career-based programs, and producing self-reliant, self-sufficient technocrats capable of meeting new challenges.

Mission of Institute

The mission of the institute is to educate young aspirants in various technical fields to fulfill The global requirement of human resources by providing sustainable quality education, training, and an invigorating environment besides molding them into skilled competent and socially responsible citizens who will lead the building of a powerful nation.

Robotics Process Automaton

- Robotics is software that can navigate across different IT systems to work the way a human does.
- Robotics process automation (RPA) is the most commonly adopted type of robotics solution thus far.
- RPA automates heavily rules-based processes with structured data; Think If, Then, Else...

Key Terms

Robot = "Bot"

- An individual agent or "virtual worker" capable of performing tasks assigned to it.
- Alternatively with some tools, a bot can refer to the automated task itself.

Configuration

- The action of creating an automation for a process or activity within a robotics software platform.
- Alternatively, some companies may use the terms "program," "develop," or "train."

Vendor/Tool Examples

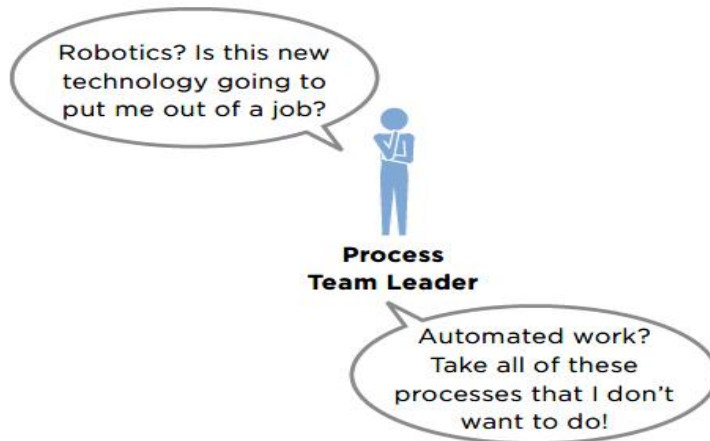

- Automation Anywhere, Blue Prism, UiPath, Workfusion, IBM Watson, Amelia, NICE, Redwood, Pega, Kofax.

REFRAME ROBOTICS AS CONTINUOUS IMPROVEMENT

Initial Stakeholder Reactions to Robotics
Illustrative

When stakeholders are fearful that robotics will take away their jobs, they avoid offering suggestions for automation opportunities.

When stakeholders do not fully understand the capabilities of robotics, they may submit complex, undocumented activities as automation opportunities.

Robotics Continuous Improvement Education Session
Illustrative

Tool	Time to Implement
Robotics	Weeks
Value Stream Mapping	Weeks-Months
Six Sigma	Months
Process Re-engineering	Months/Year

Approach: Train regional continuous improvement teams to pitch robotics as a process improvement tool to be considered alongside value stream mapping, six sigma, and process re-engineering.

Result: Stakeholders approach robotics with a clearer understanding of its capabilities, and they suggest more ideal opportunities.

HOW UIPATH AUTOMATE THE BUSINESS PROCESS

RPA automates repetitive business processes in industries, including banking, IT, human resources and healthcare.

The software bots RPA uses can understand what's on a display, navigate systems, input keystrokes, identify data, extract data as well as perform various other actions.

When combined with artificial intelligence (AI) and machine learning, RPA can capture more context from the content.

Career Oriented learning path for students.

Advisory board members/active member details:

S. NO	NAME	DEPARTMENT	CERTIFICATION
1	Dr. Sanjay Kumar Singh	Director Campus, MIET Meerut.	–
2	Dr. Swati Sharma	HOD IT/CSIT, MIET Meerut	–
3	Mr. Shailendra Singh	Placement Coordinator, MIET Meerut	–
4	Mr. Punit Mittal	SPOC RPA MIET Meerut	Advanced RPA Developer

Coordinator details

S. NO	NAME	DEPARTMENT	CERTIFICATION
1	Mr. Punit Mittal	SPOC RPA MIET Meerut	Advanced RPA Developer

MEMORANDUM OF UNDERSTANDING

We seek an automated and fully employed world!

UiPath is proud to recognize our educational alliance with

Meerut Institute of Engineering & Technology

Uttar Pradesh India

for collaboration on growing the Robotic Process Automation (RPA)
knowledge ecosystem.

2019-03-08

Certification ID: 015177

Thomas P. Clancy
Chief Learning Officer

LIST OF EQUIPMENT

Hardware Requirements

	Minimum	Recommended
CPU Cores	2 × 1.8 GHz 64-bit (x64)	4 × 2.4 GHz 64-bit (x64)
RAM	4 GB of usable system memory	8 GB
Disk Space	3.5 GB for new installations, 5 GB for upgrades (including temporary files required during installation)	N/A

- **Operating System:** 8.1 or greater
- **.NET Framework:** Version 4.6.1 or greater
- **Web browser:** Microsoft Edge 78 or greater with Internet Explorer (IE) mode, Google Chrome version 64 or greater
- **Microsoft Office:** Office 2013 or greater version
- **File System:** NTFS

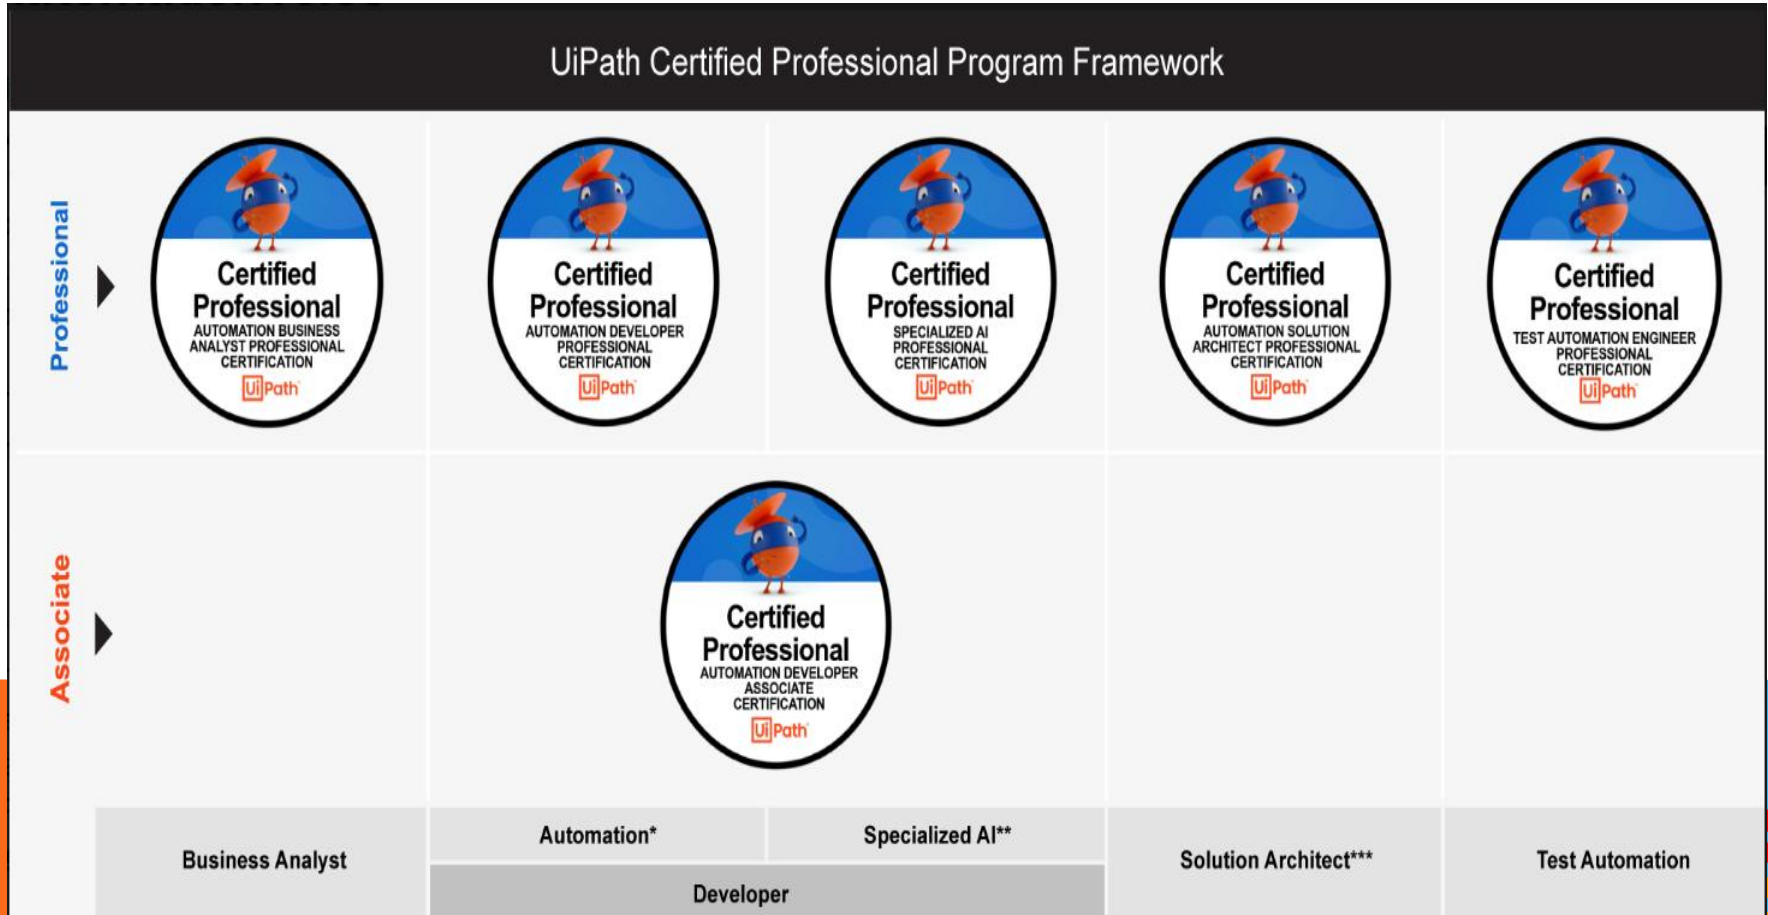

V Semester		
Lab No.	Topics	Duration
1	Robotic Process Automation – Introduction, Working	2 Hrs.
2	Basics, Installation and Understanding User Interface Components	2 Hrs.
3	Automation Projects and Their Debugging	2 Hrs.
4	Workflow Design 1	2 Hrs.
5	Workflow Design II	2 Hrs.
6	If-else	2 Hrs.
7	Loop	2 Hrs.
8	Flowcharts	2 Hrs.
9	Dictionary	2 Hrs.
10	Array Implementation	2 Hrs.

VI Semester		
1	Browser Automation-I	2 Hrs.
2	Browser Automation-II	2 Hrs.
3	Recording	2 Hrs.
4	Application Automaton-1	2 Hrs.
5	Data scraping and screen scraping	2 Hrs.
6	Excel Automation-1	2 Hrs.
7	PDF Data Extraction & Automaton	2 Hrs.
8	Email Automation	2 Hrs.
9	Orchestrator-1	2 Hrs.
10	Orchestrator-1	2 Hrs.

UiPath Certified Professional Program Framework

A Total of 20 students were placed through this training in TCS.

S. No.	Roll. No.	NAME OF STUDENTS
1	1606810029	AHTASHAM ANSARI
2	1706814001	ANKITA RASTOGI

Discover

Continuously explore opportunities for process and task improvements helping you verify the highest ROI areas.

Automate

Get more done with a digital workforce that seamlessly collaborates with your people and automates work via UI and APIs, powered with native integrated AI.

Operate

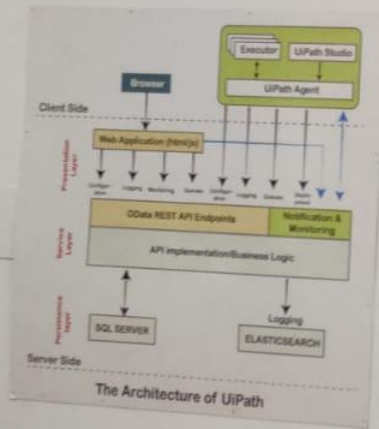

An end-to-end quality foundation to run and optimize a robust digital automation program at high scale.

Your Processes | Your Applications | Your People
