Use of Salesforce in Case Management and Task Management

In conversation with Sri Vishnu Saran (chairman, MIET Meerut)

Topic: Equality Begins with Education: Salesforce as a Platform for Change

Related to Trailhead, Salesforce created myTrailhead, which is a learning experience platform allowing users to leverage the power of Trailhead to create a culture of continuous learning (and earn fun badges and credentials!) at institutions and organiza-

tions across all industries. For education, this means empowering faculty, staff, and students with an on-demand, plat- form customized with an institution's own content and logo. The content could include (but not limited to) trails on on
Common Challenges in Salesforce Integration

Salesforce thus serves as a consolidated customer data location, and hence it makes sense for companies to enable its integration with the existing platforms seam- lessly.Salesforce integration caters to different layers, like Identity, Data, Process, and presentation layers. Salesforce provides flexible data security model to secure data at different levels like object level, record level, and field level security. Salesforce integration syncs data and helps in maintaining the data consistency be-
